Exciting programme of speakers announced for 2017 MEADFA Conference

Key players in the duty free and travel retail industry from across the Middle East and Africa will head an impressive line-up at the 2017 MEADFA Conference, managed by TFWA and hosted by Beirut Duty Free.

The event is being held under the patronage of H.E. Saad Hariri, Lebanese president of the council of ministers, who will address delegates on day one of the conference.

Also among speakers on the opening day of the event will be Phoenicia - Aer Rianta Co. chairman Mohamed Zeidan, one of the pioneers of the regional duty free industry since first winning the duty free contract at the old Beirut Airport in 1979. The conference programme will also feature a strong focus on the Middle Eastern consumer, courtesy of Karl Nader, partner with Strategy& (part of the PwC network) and the co-leader of the firm's consumer and retail business in the Middle East. Counter Intelligence Retail research director Stephen Hillam will follow this with a look at today's travelling consumer in the Middle East and will present the findings of an exclusive new study for MEADFA.

Day one will close with a session entitled 'the MEADFA Challenge', designed to showcase initiatives that will help engage the regional traveller in new ways. Beirut Duty Free and Dufry are among the retailers taking part.

Tuesday's programme will open with an examination of the business outlook for the Middle East and Africa, featuring an exclusive report for the MEADFA Conference compiled by Emerging Markets Intelligence & Research founder and chief executive officer Trevor McFarlane. Oman Airports general manager commercial operations Samer Ahmed Mohammed Al Nabhani, meanwhile, will reveal the company's ambitious commercial plans for the new airport hub in Muscat.

African aviation consultant and former CEO of SA Express Airways Inati Ntshanga and Mounir Seifeddine, director of purchasing at Middle East Airlines, will then give delegates an airline perspective of the prospects for the region.
